"SafeVisitor Solutions has been excellent to work with in developing a visitor management system that was easy to use, as well as quick and affordable for our large urban school district. They have been responsive to our customer needs, and we are very happy with the increased security SafeVisitor provides."

- Dottie Davis,
Former Director of Security at Fort Wayne Community
Schools in Fort Wayne, IN

"Our implementation of SafeVisitor has been a success! Our community has been very accepting of the added proactive screening for our buildings. It has strengthened safety and streamlined our volunteer process."

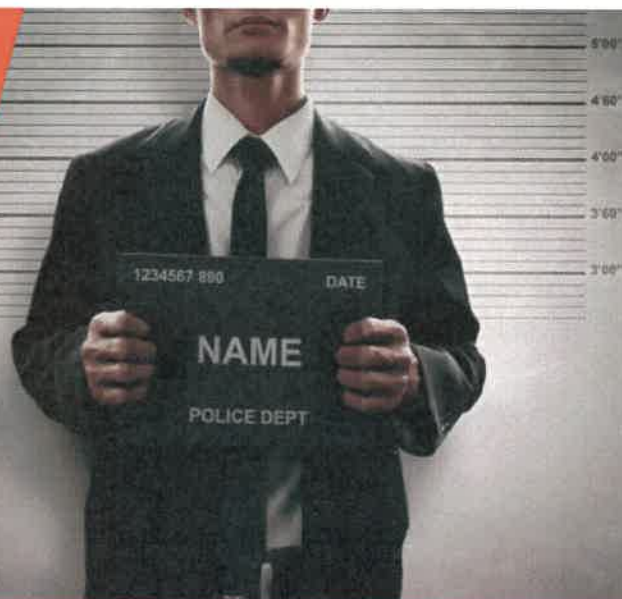

- Clint Forsythe, North Mason School District in
Belfair, WA

CONTINUOUS ARREST MONITORING

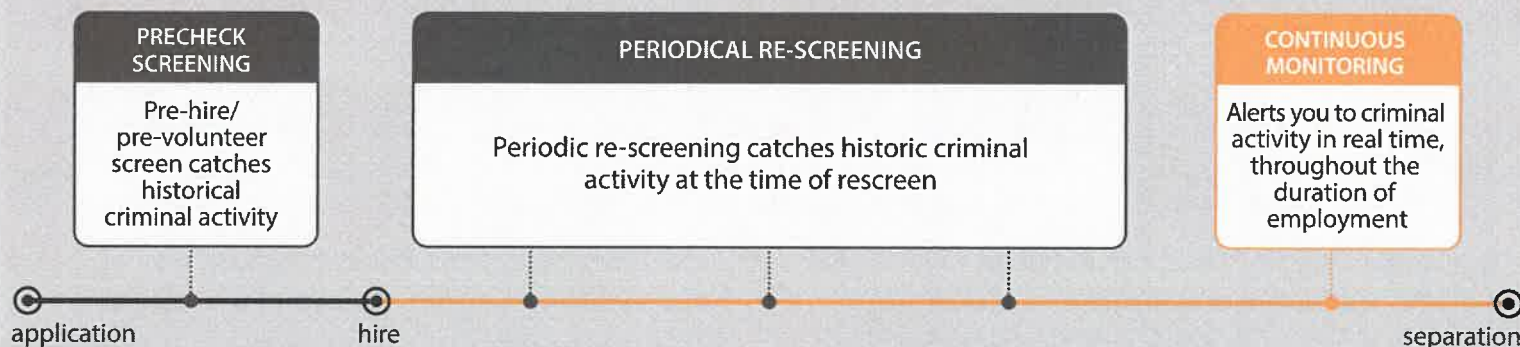

VS

PERIODIC RE-CHECKS

Organizations have relied heavily on background checks during the recruiting process for employees, contractors or volunteers. In recent years, many organizations have adopted policies to do periodic re-checks to uncover new criminal records.

ArrestAlert is a continuous monitoring solution that provides real-time arrest alerts from incarceration events.

Our team has lived safety and security as highly trained former law enforcement officers, Secret Service Presidential Details, Navy Seal Cyber-Intelligence, school security directors and security software engineers.

WHAT MAKES SAFEVISITOR DIFFERENT?

- ❖ **Custom Excluded Parties List** - create custom lists of excluded parties
- ❖ **National Background Checks** - integrated with industry leading international background screening firm
- ❖ **ArrestAlert** - real time arrest alerts with integration to U.S. jails & booking facilities
- ❖ **Kiosk** - Let the kiosk do the work and ID visitors before entering building
- ❖ **Facial Recognition** - create a "fast pass" for high frequency visitors with 100% identification
- ❖ **Student Information System Integrations** - Sync student data, early dismissals, reunification etc.
- ❖ **Cloud - Based** on the secured Microsoft Azure Cloud.
- ❖ **Emergency Alerts** for denied entry or emergency situations

AUTOMATED REFERENCE CHECKS

Reference checks that will speed up your onboarding process

Our team has diversified backgrounds in recruiting, technology, law enforcement and legal backgrounds. In 2014, as organizations were removing reference checking from their onboarding process because of the labor required, length of time to complete and the lack of quality feedback with phone-based reference checks, we launched RefLynk to provide a fast, comprehensive solution for obtaining employment, volunteer, and tenant candidate feedback.

Let RefLynk Do All of the Heavy Lifting

CANDIDATE DRIVEN

Give the candidate responsibility for initiating and collecting reference feedback via RefLynk online tool.

MORNING DIGEST

Status report delivered to your inbox each morning.

REFERENCE DECLINED

Declined reference automates a text to candidate to add new reference.

ALERTS & NOTIFICATIONS

Text & email notifications when reference surveys are completed.

AUTOMATED REMINDERS

Auto reminders every 12 hours.

AUTO COMPLETE

Set minimum requirements i.e. want 4 references will accept 3 after 48 hrs.
