

Mining Insurance

[VIEW MORE](#)

Coverage Solutions

- **General Liability:** Coverage for eligible third-party bodily injury and property damage claims, including exposures associated with blasting, products and completed operations.
- **Commercial Auto:** Coverage for eligible vehicles used in mining operations, including service vehicles, heavy equipment and haul trucks, subject to underwriting appetite.
- **Umbrella/Excess Liability:** Additional liability limits above approved underlying coverage. Towers of \$25 million or more may be available for eligible accounts.
- **Workers' Compensation:** Coverage for eligible employee injuries and occupational exposures, including underground and other high-hazard mining operations.
- **Contractors Pollution Liability:** Site-specific or blanket coverage for eligible pollution conditions arising from mining contractor operations.
- **Inland Marine:** Coverage for eligible mobile equipment, machinery, tools and other property that moves between mining sites.
- **Mine Property:** Coverage for eligible surface and underground property, fixed equipment and mineral-processing facilities.
- **Professional Liability / Errors & Omissions:** Coverage for eligible claims arising from mine engineering, consulting and other professional services.
- **Environmental Impairment Liability:** Coverage for eligible environmental exposures such as acid mine drainage, pollution conditions and remediation obligations.
- **Cyber Liability:** Coverage for eligible cyber events affecting business systems and operational technology used in mining and processing operations.

Coverage availability, limits and terms depend on account details, underwriting review and current market appetite.

Mining Operations and Service We Support

Surface Mining, Quarry and Extraction

- Coal surface mining
- Aggregate and crushed-stone quarries
- Sand and gravel operations
- Limestone and mineral extraction
- Open-pit metal mining
- Phosphate and potash mining
- Reclamation contractors
- Mine-site earthwork and grading

Underground and Hard-Rock Mining

- Underground coal mining
- Hard-rock and metal mining
- Tunneling and shaft sinking
- Mine-ventilation contractors
- Drilling and blasting contractors
- Mine-support services
- Roof bolting and ground control
- Conveyor and haulage systems

Mining Contractors, Equipment and Professional Services

- Contract mining operations
- Mine-equipment dealers and rental businesses
- Explosives distribution and storage
- Environmental and reclamation services
- Mine-safety consultants
- Mineral processing and beneficiation
- Mine-engineering firms
- Water treatment at mine sites

Why Choose Us

Deep Underwriting Relationships

With over 100 carrier appointments and underwriting relationships spanning 15+ years, we maintain access to limited-distribution energy markets not available to general brokers. These long-standing connections allow for quick negotiation and creative placement solutions.

Specialization in Hard-to-Place Risks

We understand non-standard exposures better than most. Our team excels in designing coverage that satisfies Master Service Agreements (MSAs) and other technical requirements in energy and industrial sectors.

Speed and Service

Our focused, relationship-driven model ensures every account receives senior-level attention, faster turnaround, and responsive communication, a differentiator that fuels our continued growth.
