

Renewable Energy

VIEW MORE

Renewable Energy Segments We Support

- **Biomass:** Biomass combustion, biogas and landfill gas, anaerobic digestion, waste-to-energy and biofuel production. Common exposures may include fire, equipment breakdown, pollution and operational interruption.
- **Geothermal:** Steam-flash plants, binary-cycle systems, direct-use applications and geothermal exploration drilling. Common exposures may include drilling, equipment breakdown, pollution and operational interruption.
- **Hydro:** Run-of-river hydro, reservoir dams, pumped storage and small or micro hydro systems. Common exposures may include construction risks, equipment breakdown, water-related damage and operational interruption.
- **Solar:** Utility-scale photovoltaic farms, concentrated solar power, commercial rooftop projects and battery energy storage. Common exposures may include weather damage, fire, equipment breakdown and construction or operational interruption.
- **Wind:** Onshore wind farms, offshore wind installations, turbine manufacturers and project developers. Common exposures may include weather damage, turbine or equipment failure, construction risks and operational interruption.

Industries and Operations We Serve

Solar, Wind and Energy Storage

- Commercial solar owners, operators and contractors
- Wind owners, operators and contractors
- Outdoor battery energy storage systems

Geothermal, Biomass and Bioenergy

- Geothermal facility owners, operators and contractors
- Ethanol and biomass plant owners, operators and contractors

Hydroelectric and Renewable Energy Products

- Hydroelectric power owners, operators and contractors
- Renewable energy product manufacturers and dealers

Why Choose Us

Deep Underwriting Relationships

With over 100 carrier appointments and underwriting relationships spanning 15+ years, we maintain access to limited-distribution energy markets not available to general brokers. These long-standing connections allow for quick negotiation and creative placement solutions.

Specialization in Hard-to-Place Risks

We understand non-standard exposures better than most. Our team excels in designing coverage that satisfies Master Service Agreements (MSAs) and other technical requirements in energy and industrial sectors.

Speed and Service

Our focused, relationship-driven model ensures every account receives senior-level attention, faster turnaround, and responsive communication, a differentiator that fuels our continued growth.
