

# Industrial Turnaround Contractor Program

## Coverage Solutions

- **General Liability:** Coverage for eligible third-party bodily injury and property damage claims arising from contractor operations.
- **Contractors Pollution Liability:** Coverage for eligible pollution conditions or environmental releases associated with covered contracting work.
- **Professional Liability:** Coverage for eligible claims arising from professional services when those services are part of the contractor's operations.
- **Commercial Auto:** Coverage for eligible vehicles used in connection with turnaround and industrial shutdown operations.
- **Workers' Compensation:** Coverage for eligible employee injuries and occupational exposures arising from covered operations.
- **Supported Follow-Form Excess:** Additional liability limits that follow approved underlying coverage, subject to underwriting and program terms.

Coverage availability, terms and limits depend on the account details, underwriting review and current market appetite.

## Available Limits

- Up to \$1 million per occurrence for eligible General Liability, Contractors Pollution Liability and Professional Liability coverages.
- Up to \$2 million shared aggregate, subject to underwriting and program terms.
- Up to \$10 million in supported follow-form excess limits, subject to approved underlying coverage and underwriting.

## Turnaround Work We Support

The program is designed for specialized contractors performing planned, short-duration industrial work, including:

- Industrial turnaround work at refineries, chemical plants and processing facilities.
- Planned maintenance, repairs, equipment upgrades and related industrial services.
- Contract-driven projects with formal safety oversight, defined scopes of work and documented operating requirements.

## Program Eligibility

The strongest program candidates typically include:

- Experienced, pre-qualified turnaround contractors - not general construction risks.
- Contractors with documented safety programs for lockout/tagout, confined-space work, hot work and work at heights, as applicable.
- Operations supported by intensive safety training and multi-layered project oversight.
- Accounts with favorable, well-documented loss history and disciplined risk controls.

## When to Consider This Program

Consider the Industrial Turnaround Contractor Program when your client:

- Performs planned industrial turnaround or shutdown work.
- Has been declined or restricted by standard insurance markets.
- Needs contract-driven or master service agreement-specific coverage.
- Requires a specialty E&S solution with experienced underwriting support.

## Why Choose Us

### Deep Underwriting Relationships

With over 100 carrier appointments and underwriting relationships spanning 15+ years, we maintain access to limited-distribution energy markets not available to general brokers. These long-standing connections allow for quick negotiation and creative placement solutions.

### Specialization in Hard-to-Place Risks

We understand non-standard exposures better than most. Our team excels in designing coverage that satisfies Master Service Agreements (MSAs) and other technical requirements in energy and industrial sectors.

### Speed and Service

Our focused, relationship-driven model ensures every account receives senior-level attention, faster turnaround, and responsive communication, a differentiator that fuels our continued growth.
