

PROGRAMS

Agriculture

A dedicated workers' compensation program designed for the real risks of agricultural employers—seasonality, labor intensity, and safety-critical work.

Our Agriculture Workers' Compensation Program delivers stable, specialized coverage for farm and agribusiness employers. Built to reflect the realities of agricultural operations—from seasonality to equipment-driven risk—this program offers disciplined underwriting, experienced claims handling, and a long-term commitment to this class of business. Designed for safety-minded agricultural employers seeking predictability and partnership, not volatility.

The Method Advantage:

- **Nationwide Coverage:** Backed by A-rated carriers and available in all non-monopolistic states.*
- **Solution for Businesses of All Sizes:** Small Business and Middle Market coverage available.
- **Flexible Payment Options:** Including monthly payroll reporting to support seasonal fluctuations.
- **Power of the Pen:** Seasoned underwriters who specialize in agriculture and understand the nuances within this industry.
