GEICO Local, Regional, and Long Haul Trucking Program

Well, we can't write everything, so here's what isn't a fit for our program.

Unacceptable Trucking Business Types:

- Fleets with more than 9 power units
- Risks requiring a UIIA endorsement
- Risks requiring a hazmat placard or filing
- Mobile home toters
- Auto/truck dealers
- Businesses involving towing (including auto repair shops, gas stations, and auto salvage haulers)
- Passenger transportation either for a fee or courtesy shuttle (rideshare, taxi, limousine, hotel shuttle, school bus, tour operator, agricultural workers, non-emergency medical transport/NEMT, etc.)
- Truck rentals
- Truck driving schools
- Towing services and businesses that use vehicles to tow or repossess vehicles

Unacceptable Body Types:

- Ambulance
- Antique auto
- Armored car
- Bus 16+ passengers
- Custom-built or alternatively powered auto
- Glider kits
- Golf cart
- Hearse
- Limousine
- Mobile equipment (including bucket truck, cherry picker, bulldozer, crane, forklift, etc.)
- Motor home
- Motorcycle/scooter
- Snowmobile
- Travel trailer
- Vehicles open to the public (bookmobile, bloodmobile, construction trailer, party bus, mobile salon, etc.)
- Vehicles with suspension lifts that do not meet state regulations by vehicle weight
- Wheelchair bus
- Wheelchair van

Additional Unacceptable Risks:

- Policy with more than 9 power units
- Vehicle with stated amount greater than \$300,000
- Drivers with diplomatic driver's license
- Policy in which any driver does not have an active license
- Policy in which any driver has a revoked license
- Policy with any driver with excessive CLUE/MRV activity, as defined by the company
- Vehicle use that involves business travel into Canada or any travel at all into Mexico
- Vehicles with dealer license plates
