HUB's London Strategy

What is the London Marketplace?

Main Components

International Network & Servicing

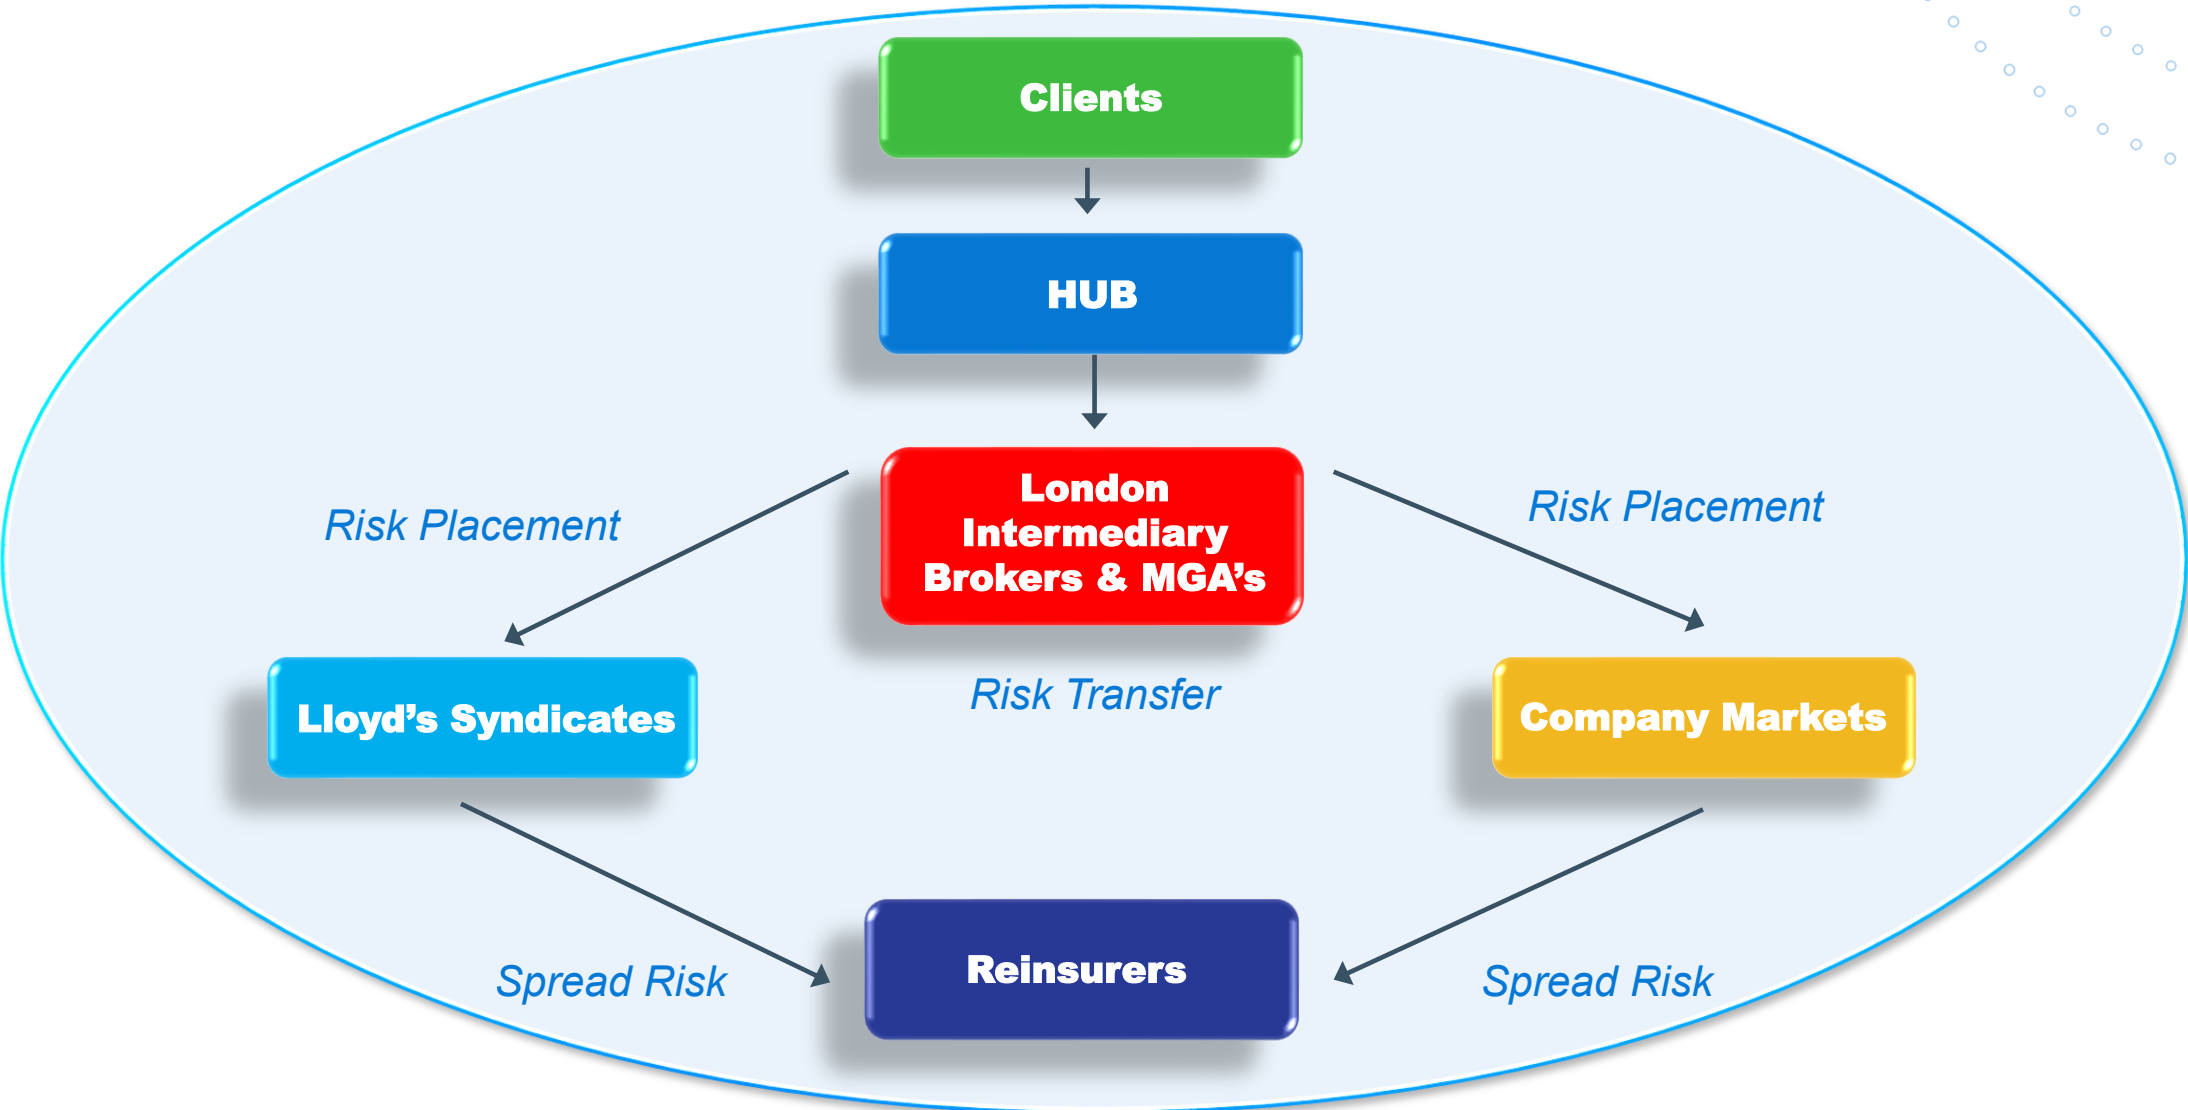

- HUB strategic partnerships with Howden & Worldwide Broker Network (WBN)
- Used for multi-national clients
- Local “in country” servicing, including:
- Policy issuance
- Invoicing
- Broker engagement with the local client

Risk Transfer Capacity via Open Market

- Access to the open market of London insurers and syndicates – incl. European insurers and the European divisions of global insurers
- Like the US wholesale space, these markets must be accessed by locally licensed UK-based intermediaries
- HUB “open architecture” access with preferred London intermediaries
