Among the men and women that keep our world moving are those with calloused hands and hard hats. At AMERISAFE, our duty is to keep these workers protected.

- We target small to mid-sized businesses in industries that typically generate low frequency, high severity claims.
- We actively market workers' compensation insurance in **27 states**.
- We are an **"A" (Excellent)** rating company by A.M. Best.
- In 2022, we were named to the **Ward's 50** top performing property-casualty companies for the **14th consecutive year**.
- We've maintained a **policyholder retention rate over 90%***.
- For **over 30 years**, we've focused on one thing, and one thing only: workers' comp.

WORKERS' COMP IS ALL WE DO.

POLICYHOLDER RETENTION RATE
OVER 90%*

**"A" (EXCELLENT) RATED
COMPANY BY A.M. BEST**

SAFETY IS OUR FOCUS

Protecting the people we serve is what matters most. That's why we:

- Hire Field Safety Professionals (FSPs) with industry experience.
- Make sure our FSPs are on the ground by employing people that live where our policyholders work.
- Keep policyholders Safe Above All by providing a clear observation of safety practices at regular visits.
- Provide our policyholders access to Safety Services at no additional charge, including:
 - Safety Information Service Catalog
 - Written Safety Programs
 - On-Site Consultative Services
 - Streaming Video at no cost through Evolved Safety
 - Preferred pricing for online training services through Evolved Safety

“PEACE OF MIND” AUDITING

At AMERISAFE, our Audit services are structured to ensure accurate premium is paid for the coverage provided by:

- Performing an on-site interim audit, generally within 90 days, to educate and provide new policyholders with the best reporting experience.
- Using physical audits to confirm the accuracy of reported data which minimizes variance at final audit.
- Utilizing monthly reporting of premiums to manage business cash flow and ensure a satisfactory final audit.

Physical final audits will be performed to confirm monthly reports.

SPECIALIZED UNDERWRITING EXPERTISE

AMERISAFE Underwriters are highly disciplined when quoting and binding business, and our over 30 year history gives us an advantage when it comes to insuring high risk industries.

- We do not delegate underwriting to agencies, wholesalers, or any third-party providers.
- Accounts are bound after approval from the Underwriting staff and AMERISAFE will confirm binding to the producer with the policy number included.
- A formal request to bind must be received prior to the effective date of coverage request.

CLAIMS: THE PROMISE DELIVERED

Even with the most comprehensive safety services, accidents will happen. We believe all injured workers deserve to be treated with respect. That's why we work hard to:

- Assign claims to a local Field Case Manager (FCM) to provide face-to-face guidance.
- Give our FCMs a smaller load of an average less than 60 claims per FCM.
- Provide Nurse Case Managers and other resources to support the FCM.
- Have only one point of contact, the FCM, throughout the life of the claim.
- Be considerate of the injured worker's family as part of the Claims process.
- Provide a “fast track” for injuries that are relatively minor so the claim is handled in an efficient and timely manner to help the injured worker return to work early.

ONLINE SERVICES FOR OUR POLICYHOLDERS

Our Online Services give the policyholder the access they need, when they need it. With our Online Services, policyholders can:

- Make Online Payments
- Complete Premium Reporting
- Find State Claims Packets
- Download Loss Runs
- View Safety Training
