

Making the switch to loss-sensitive workers' compensation.

Why a loss sensitive plan may be a fit for you.

We know that you're constantly searching for specialized solutions to help manage risk and achieve better outcomes. Our National Accounts team is offering a loss sensitive workers' compensation program for lower loss projection that easily enables you to transition from guaranteed cost to a loss sensitive structure.

Loss Sensitive Lite is a simplified program structure that moves your business to loss sensitive but with more limited risk to the insured. Your bottom line can be improved by focusing on the total cost of risk and by emphasizing safety and loss control activities to help reduce your retained losses.

Our goal with this approach is to keep the structures simple – inclusive premium, low retention, tight loss aggregates, pre-funded loss as collateral and a closeout feature!

Take a closer look.

Size of Accounts

Workers' compensation guaranteed cost premium **less than \$2M**

Structure

- **A Prefunded Deductible** or **Incurred Loss Retro** program structure with a closeout feature at 54 months
- **Collateral** – Pre-funded programs no additional collateral
- **Per Occurrence Retention** – Fixed at \$100K
- **Aggregate Loss Retention** – 2X The Hartford loss projection
- **Claims Handling Cost** – Flat charge included in premium for ClaimPlus
- **Risk Engineering Services** – Allocation for basic service included in premium

A better fit than Guaranteed Cost?

The benefits of a loss sensitive program under our Loss Sensitive Lite product offers several benefits when compared against a first dollar Guaranteed Cost program:

- Ability to benefit from improved loss performance
- Lower up-front program costs
- More control on outcomes with claims management and risk engineering services
