

Construction

Construction companies build the future, and the crews who bring projects to life deserve comprehensive and reliable Workers' Compensation coverage. EMPLOYERS' Excess Workers' Compensation product is tailored to the construction sector, including commercial and residential builders, civil contracting firms, and specialty-trade contractors, delivering a flexible, data-driven solution that helps to safeguard against catastrophic loss while turning risk into a strategic advantage.

With EMPLOYERS, construction leaders gain peace of mind, measurable savings, and future-ready coverage so they can focus on what matters most: delivering safe, on-time projects and shaping the building industry.
