SOLUTIONS

DRS Managed Vendor Partner (MVP) Program

One Call. Total Response.

After a disaster, speed and coordination matter. DRS connects you with the right experts quickly through one point of contact. Our Managed Vendor Partner (MVP) Program simplifies your recovery, saves time and reduces costs.

WHY IT WORKS:

We have built a nationwide network of vetted, best-in-class vendors who are ready to respond at a moment's notice.

We call them MVPs because they deliver turnkey solutions for every recovery need, including:

- Mitigation & Restoration
- Construction & Roofing
- Equipment & HVAC
- Salvage & Contents

WHAT DRS DOES:

DRS manages the process from start to finish.

- We coordinate with you, your broker, DRS MVPs, and the insurance carrier to align scope, pricing, and execution. That means fewer delays, disputes, and faster results.

NO COST TO YOU:

Our partners pay DRS to be in the MVP program. DRS does **NOT** bill you for MVP coordination.

- Worried about inflated pricing? Our MVPs are subjected to the insurance adjustment process, so insurers validate scope and cost for restoration and repairs.

WHY DRS:

With over 30 years of experience, DRS has successfully managed billions in disaster recovery and resilience funding for states, cities, school districts, non-profits, and healthcare systems. We are more than consultants, we are your partner in navigating federal requirements, securing funding, and building long-term community resilience.
